Type of Activity: -Celebration Activity

'World Earth Day at CT University was organized by Mr. Ati Priye, Director (Planning & Development Centre), CT University, Ferozepur Road, Ludhiana, and the invited Speaker was Ms. Ritu Bhalla, from the School of Professional Enhancement, CT University

At the beginning of the event, the speaker addressed about the Earth day and its importance of celebration. The main aim of the event was to raise awareness about the growing concerns of overpopulation, loss of biodiversity, and depletion of the quality of the environment. Further 25 minutes were given to the students for a slogan writing competition. Students wrote the slogans beautifully. Through their slogans, they gave a very beautiful message to everyone. They explained the importance of growing trees, How plastics were harmful to us or to the environment. The students beautifully presented their views along with the slogans made by them. They explained how we all are harming our surroundings. One of them also discussed that how we have to save our environment for a better future. At the last of the event, the harmful effects of bio-degradable and non-biodegradable waste, and water pollution, on the environment were addressed by the students. The students were also engaged in the tree plantation drive.
